Sheila Williams

IL EPA Bureau of Land

2309 West Main

Marion, IL 62959

Dear Sheila:

This is just to follow up on our conversation earlier today. As of the end of today, Southern Illinois Power Cooperative will not add any additional waste to our non-permitted, onsite landfill. This action was taken in order to remove our landfill from coverage under Subpart D under Part 257.50 (d) as posted in the Federal Register on April 17, 2015. According to that Subpart: *(d) This subpart does not apply to CCR landfills that have ceased receiving CCR prior to October 19, 2015.*

SIPC will begin planning the closure of that area of the plant property.

Thank you.

Respectfully,

Leonard F. Hopkins, P.E.
Vice President Fuel, Environmental, and Safety
